CATTLEMAN'S CONNECTION ANGUS SALE

Tuesday, 1:00 p.m. (MDT)

MARCH 12, 2024

At the Ranch, Yuma, CO

3 1/2 Miles South of Yuma on Hwy. 59

Hello Friends!

Another year has come upon us and it's showing us what we can look forward to.

The news for cow-calf producers couldn't be looking any better right now and according to most market analysts, cow calf folks are in the drivers seat for the next 2 years. That's some welcome news and sure helps make up for leaner times.

We here at Wagon Wheel Ranch, have our focus set on what the feeders and packers want and it's the same as what we strive for in our breeding to ultimately produce that exact product.

And how do we know this, we know from feeding select sets of steers and seeing what the harvest data shows. The main expected progeny difference here had better be how that carcass grades and yields.

Results matter and we keep compiling them in feeding trials. Take a look inside the office at the many, many winners from feeding and you too will see that our claim of positive results are proven out, year after year after year.

Once again, I'm asking for you to check out our offering, see the bulls and also check out the heifers we have.

I'm looking forward to seeing everybody at the sale.
Happy Trails!

40 Purebred Open Angus Commercial Heifers

The commercial Angus and F1 Polled Hereford cross baldy heifers have the same excellent genetics as the base of our cow herd. Calving ease, milking ability, easy fleshing ability, fertility, and excellent longevity in your herd. Carcass genetics and feeding performance is a mainstay of our herd. Weights will range from 650 - 800 pounds by sale day. These heifers are unbranded so that when you put yours on, it will be the first and only brand on them.

We sort these heifers into uniform groups of 10 head and when selling the buyers will have the chance to pick from 1 to 10 heifers. After the first selection, if any heifers remain in that pen, then the next opportunity will be to buy out of that draft for same money. If any remain after that, then the next winning bid cleans the ring.

We've also started them on their first round of prebreeding vaccinations for those of you who choose to go with a modified live vaccination, they were administered at the same time as their Bangs vaccination, a dose of Zoetis Bovishield Gold 5 VL5. This way if you choose to continue with that program during their lifetime it's already started for you. We recommend that you continue with a vaccination schedule throughout these animals' lifetime.

We are deeply committed to the over all health of our herd and strongly believe a good and proper vaccination program is the foundation to the health and vigor of the cows, calves and bulls which go through our ranch.
